Silverline Electricals Private Limited, started as a contracting firm and ventured into manufacturing transformers and allied electrical equipments. Today SEPL is considered a leading EPC company with a strong manufacturing base and proven expertise in turn-key project execution and liaisoning.

SEPL provides end-to-end EPC solutions to small and large public and private entities.

The company manufactures Distribution and Power Transformers with rating up to 5000 KVA and wide array of HT and LT panels.

### Vision:

Our vision is to be the benchmark of electrical infrastructure industry. Also, to be considered as trusted partner by our customers for creating value by providing innovative & quality products, solutions and services.

### Silverline Electricals works thru following divisions:

- Manufacturing
- EPC Projects
- Consulting Services

### Infrastructure

The plant is located at Sanaswadi, Off Pune-Ahmadnagar Road, Tal.- Shirur, Dist. - Pune, Maharashtra, INDIA.

- Well constructed factory shed of 40,000 Sq.Ft. with modern setup.
- 10 ton EOT crane for material handling.
- Oil filtration plant of 2500 Lt./hour capacity.
- In-house facility for core slitting and core cutting.
- Winding facility for Disc, Helical, Crossover Winding.
- State-of-the-Art painting booth.
- In-house insulation cutting facility.

### Testing

Silverline has a quality testing lab, with all modern testing facilities, for Routine Tests as per IS: 2026. Each job is fully tested before dispatch

- Ratio Test (ELTEL make Ratio Meter)
- Induced High Voltage Test (up to 100 KV)
- Double Voltage Double Frequency Test (50 KVA)
- Impedance Voltage Test Panel

- Heat Run Test up to 5 MVA
- Winding Resistance Test (Micro Ohm Meter) - PRESTIGE make
- YOKOGAWA, Japan make Power Analyser
- DIELECRIC CONSTANT Tan Delta & Resistivity Test ELTEL make
- Oil B D V Tester 100KV capacity
- Capacity Load Bank with 400 KVAR capacity

### Quality Control

- All the required material is sourced from qualified manufacturers.
- Each job undergoes stringent quality check and stage inspection.
- Team of experienced people oversee the end-to-end manufacturing process ensuring quality product is dispatched to the customer.

### Design

Designs have been standardised up to 5000 KVA and 33 KV range as per IS: 2026 reference standard. In-house experienced design team helps SEPL provide quality product with best design & optimum efficiency that complies with required specifications. The company can cater to any non-standard requirement of jobs within the prescribed range.

### Approvals

- SEPL transformers are approved for MSEDCL INFRA II.

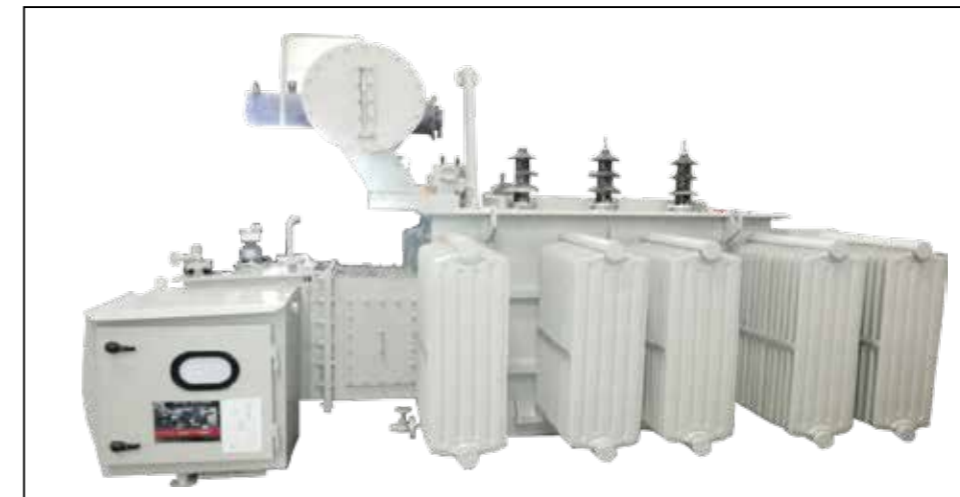

### Products

Silverline Electricals Pvt. Ltd. manufactures following energy efficient and cost effective products conforming to the latest design specifications:

- Distribution and Power Transformers rating up to 5000 KVA/33 KV
- HT & LT Feeder Pillars
- Synchronising Panel
- APFC Panel
- CT Operated Meter Boxes

### Distribution and Power Transformers

### Electrical Panels and HT/LT Feeder Pillars

## Client List

SEPL has supplied transformers & allied electrical panels of various ratings to wide range of customers. SEPL is recognised by the industry for the quality of products supplied. The company has successfully supplied various products to many companies. Some of which are:

MSEDCL  
Panchshil Group  
Pune Municipal Corporation  
Lifestyle Mall  
B K Jhala & Associates  
S. M. Electric Works  
Jatia Hotels & Resorts  
Duplex Wires
